## Streamline Billing, Increase Efficiency, and Maximize Profitability

Our Digital Billing platform is easy to use and can be configured for your firm's particular needs. Clients report quicker turn around time for attorney edits by using this tool, thus increasing productivity and driving higher profitability.

Streamlined Billing

Streamline billing with an intuitive and user-friendly interface that slashes pre-bill edit time and empowers attorneys and staff to focus on delivering exceptional legal services.

Flexible Functionality

Despite the complexity of your fee structure and billing arrangements, Nth Degree's platform can be tailored to provide a logical, user-friendly approval process.

Robust Analytics

Our analytics integrate into your existing systems, allowing you to easily access and understand your firm's profitability and trends, and where there may be opportunities for growth.

Other Ways to Streamline Processes Through Our Platform

Easily capture edits from attorneys and legal assistants through the platform to both expedite the billing process and eliminate duplicate efforts.

Automate and simplify prebill tracking and send email reminders using firm approved templates.

Through every stage of billing, access summary statistics, including during the attorney and biller review stages, and while awaiting client distribution.

Dynamic prebill interface allows attorneys to review the impact of modifications, discounts, and adjustments. Reducing the need to review versions of the same prebill prior to approval.
